ABOUT

Passionate Junior Full Stack Web Developer eager to contribute skills and knowledge to dynamic projects. Proficient in HTML, CSS, and JavaScript, with hands-on experience in building responsive and engaging web applications using modern frameworks like Next.js and React. Excited about leveraging MERN stack technologies for backend development.

Specialized in crafting visually appealing and user-friendly interfaces, with a keen eye for design details. Enthusiastic user of Tailwind CSS to create modern and responsive UI components. Experienced in database management, with a solid understanding of MongoDB and Firebase, ensuring seamless integration of data-driven functionalities.

As a Junior Developer, I have successfully completed various projects showcasing my creativity and problem-solving abilities. Now, I am eager to bring my skills to a collaborative team environment, contribute to meaningful projects, and continue my growth as a developer.

EDUCATION

I studied at Code Academy Berlin | Berlin September 2023 - February 2024

Web Development Bootcamp (full-time on-site) | Front-end + Back-end Completed an 840-hour intensive course focusing on practical, project-based work following the agile / SCRUM framework within the cohort, including code reviews, spikes, presentations.

EXPERIENCE & PROJECTS

RickAndMorty

This project made to fix new knowledge about NextJS. During this project I'm fetching data using REST API and GraphQL. I'm generating my pages SSR, CSR and SSG

Github · Demo

CRUD Notes

MERN Notes app. Create | Read | Update | Delete To use CRUD Notes app first you need to create account, then you will get features to create, update and delete Notes.

Github · Demo

Rakhudu

To build this React app, I used my knowledge of Typescript, Tailwind CSS and more

Github · Demo

Pokedex

This project built on Vanilla HTML, CSS and JS Fetching data from PokeApi restapi

Github · Demo

ECOMMERCE-ADMIN

During this project I evaluate my knowledge on NextJS and used techs such as NEXTAuth, NEXTApi, TailwindCSS and more

Github

COMME LE ROI

This is admin dashbord for cattery COMME LE ROI. techs: NextJS, NextAuth, TailwindCSS, MongoDB, Mongoose

Github

More projects you can see on my **Github**
